By the House of Delegates,
March 4th, 1833.

The Legislature of the state of Delaware having represented to this general assembly, that in the opinion of the legislature of the state of Delaware, it would greatly promote the interest, comfort, and prosperity of the inhabitants of the Peninsula, formed by the waters of the Chesapeake and Delaware Bays, if they were united under one government.

That it comports with the wishes and views of the people of the state of Delaware, that the people of the eastern shore of Maryland, and those of Delaware, should be united under one government, and that the region of country inhabited by them respectively, should be denominated the state of Delaware. And that the Governor of Delaware is authorised, in case these views of the state of Delaware should meet the approbation of the legislature of the state of Maryland, to appoint three commissioners on the part of the state of Delaware, to meet such as may be appointed on the part of the state of Maryland, to carry the measures into execution, and settle the preliminaries and details thereof, subject to the final ratification of the legislatures of the two states, and that of the Congress of the United States,—therefore,

Be it resolved by the general assembly of Maryland, That, holding the pursuit of happiness as the unalienable right of all men, and that political associations and governments are but means to gain that desirable end, we refer the overture made to this general assembly, by the legislature of the state of Delaware, to the candid and serious consideration of our fellow-citizens, in the respective counties on the eastern shore of Maryland, who are immediately and most particularly interested in the proposition. And we leave the subject to be first entertained by our fellow-citizens on the eastern shore, in a general convention, to be held among themselves, or in such other way as to them may seem most fit.

Resolved by the General Assembly of Maryland. That in case it should be authentically notified to the governor of Maryland, by any proper authority from the counties on the eastern shore of this state, that it is the wish and pleasure of the people in those several counties, that commissioners should be appointed on the part of the state of Maryland to meet those to be appointed by the state of Delaware, in order to adjust preliminaries and details, that all may the better understand the precise terms of the proposed change, before any final decision is made, that the governor, by and with the advice and consent of the council, is hereby authorised and empowered to appoint three commissioners from the eastern shore of Maryland, for that purpose, as soon after the notification as may be—and the said commissioners are directed to make full report to the governor, to be by him laid before the general assembly of Maryland, at the earliest period after its reception.

Resolved, That the governor of this state be requested to forward a copy of these resolutions to the governor of the state of Delaware, with a solicitation to present them to the legislature of that state,

Which was read.

Mr. Nicols moved to lay the motion and amendment on the table,

Mr. Chandler chairman of the committee on Lotteries, delivered the following report:

The committee on Lotteries to whom was referred so much of the executive communication as relates thereto have had the same under consideration, and beg leave to report:

That they cannot believe Lotteries to be productive of such appalling evils to society as is attributed to them by some, or to the extent held out in the late message of Governor Howard, and are therefore at a loss to conceive why so great a solicitude should be evinced for the accomplishment of their abolition.

But whilst your committee cannot admit that effects so deleterious in their nature, flow from the operations of the Lottery System as has been represented, they are constrained to acknowledge that the principle is not undeserving of censure, and that evils do arise out of it justly meriting deprecation; they do not think however that those evils are of so alarming a character as to call for legislative interposition, with a view to the abrogation of the system; such a course they are of opinion is not demanded by any exigencies in the case now existing, and do therefore respectfully recommend that no legislation be entertained on the subject.

Your committee being desirous of giving to the matter in question that enlarged consideration which its importance require, were induced to call upon the commissioners of Lotteries for a communication upon the subject; to this call they have responded in a spirit of candour, and in fair full and able manner, exhibited the various operations of the system, the advantages derived from it to the state, and its effects upon the community in a moral point of view.—This communication your committee would ask permission to present with their report, and request that the same be entered on the Journal.

Mr. Jones submitted the following order,

Ordered, That his excellency, the governor be requested to cause the flag of the Union to be hoisted over the capitol, to-morrow at 12 o'clock, M. in honour, and as expressive of our approbation of the patriotic exertions of Henry Clay, and those Senators and Representatives in the Congress of the United States, who co-operated with him in effecting a compromise of the Tariff, and in endeavouring to restore harmony to our country.

Which was read.

Mr. Turner moved to amend said order by striking out the name of Henry Clay.

Determined in the negative.

Mr. Jenkins moved to amend said order by inserting after the word 'approbation' the following—

And Andrew Jackson, President of the United States, for recommending in his annual message of December last, a gradual and protective reduction of the Tariff, with a just regard to the great interests invested in manufactures.

Determined in the negative.—Yeas 21,—Nays 42.

Mr. Holmes moved to postpone said order, indefinitely.

Determined in the negative.

Mr. Wright, of Q. A. offered as a substitute for said order the following—

Ordered, That in the exertions which have been made by the distinguished individuals in congress to effect a modification of the Tariff, or their exertions in favour of any other subject, they did nothing more than their duty, and that it does not comport with the dignity of freemen to be offering their thanks to any, for the performance of nothing but their duty.

Which was read.

Mr. Turner moved to lay the order and substitute on the table.

Determined in the negative.

Mr. Jenkins moved to amend said order, by adding at the end thereof the following—

And to William Wilkins, Senator from Pennsylvania, who reported the bill further to provide for the collection of the duties on imports, thereby affording to the President of the United States, power to support the dignity of the nation, and the supremacy of the constitutional laws of the land, and those Senators and Representatives who voted for the said bill.

Mr. Merrick called for the previous question, and being demanded by a majority of the members present, the said previous question was put, viz: shall the main question be now put, and it was resolved in the affirmative.

The question was then put on the amendment, as proposed by Mr. Jenkins;

Determined in the negative.

The question was then put on the adoption of the substitute, offered by Mr. Wright, of Q. Anne's;

Determined in the negative.

The question then recurred, and was put on the adoption of the original order;

Resolved in the affirmative.

Mr. Jenkins asked leave of the house, to enter upon the journal his reason for his vote on said order;

On the question being put, will the house grant the leave;

It was resolved in the affirmative.

Mr. Jenkins then offered as his reason, the following;

'Because he believes that the said order was designed as a party movement.'

On motion by Mr. Harris, seconded by two other members who voted in the majority, the house re-considered their vote upon said leave;

The question was then again put, will the house grant the leave;

Resolved in the affirmative.

ntlemen of the House of Delegates,
We have received your message proposing
e appointment of a joint committee upon the
bject of a State Bank, and urging the con-
tion of the finances of the state, and its pe-
niary engagements as a motive to some ac-
n for sustaining or improving its resources,
d to a consultation as to the expediency of
e institution referred to, for accomplishing
necessary or beneficial result in aid of our
eans or credit.
We are of opinion that conferences between
e two branches of the legislature are on
me occasions necessary and are then use-
l, as in the case of ascertained differences
opinion between the two houses on measures
roposed, and which have been already tested
y the vote of both branches. And they are
roper also upon obvious emergencies which
equire instant action, and may also be allow-
d where a subject undoubtedly requires le-
islative provision, and details only are to be
djusted which might occasion much consump-
on of time if agitated upon the distinct and
nconcerted views of each branch.
With such exceptions, we believe that the
rinciple ought to be adhered to as salutary;
nd indeed essential in the view and genius
f our constitution, that the action of the two
ranches of the legislature should be separate
nd independent.
The case presented by your message does
ot seem to be within any of these exceptions,
nd we do not conceive that any crisis exists
n our state concerns or that a necessity of
ny kind has occurred, demanding our joint
ction upon the matters submitted by the
message.

We would respectfully add that the use of joint committees, is of recent origin, and has been discovered to be inconvenient in a body limited in numbers, as the senate is. For these reasons, we decline acceding to the proposition contained in your message.

Which was read.

The house then adjourned.

ANNAPOLIS:

Thursday, March 7, 1833.

Boots and Shoes may be rendered impervious to water by the following composition, viz. 3 ounces Spermaceti, melted in a pipkin over a slow fire, add thereto 6 drachms of India rubber, cut into thin slices, and they will presently dissolve—then add of tallow 8 oz. hog's lard 2 oz., amber varnish 4 oz.—mix and it will be fit for use immediately. The boots or other material to be treated, are to receive two or three coats with a blacking brush, and a fine polish is the result. I prefer using a common sash tool, warm the shoes, and give them as many coats as the leather will absorb—pay the soles as well as the uppers.

THE INAUGURATION.

At 12 o'clock yesterday, the President and Vice President, elect, attended by the heads of Departments, Foreign Ministers and their suites, the Judges of the Supreme Court, the President of the Senate, and Senators, the Speaker of the House of Representatives, and members of the House of Representatives, the Marshal of the District and the Mayor and corporate authorities of the city, and a vast concourse of citizens and strangers, entered the Hall of Representatives. The President took the seat of the Speaker of the House with Mr. Van Buren on his left, and his private Secretary, Mr. Donelson, on his right. After a pause of a few minutes, the President rose and was greeted with the cheers of the large assembly present. He then proceeded in an audible and firm voice to pronounce his Inaugural Address, at the close of which he was again greeted with cheers and applause. The Chief Justice then approached the President and administered the usual oath, at the conclusion of which he was again cheered by the multitude. The oath was also administered to Mr. Van Buren. The President and Vice President then retired amid the plaudits of the assembly.

We give below the Inaugural Address.

INAUGURAL ADDRESS
OF
PRESIDENT JACKSON,
ON THE FOURTH OF MARCH, 1833.

Fellow Citizens:

The will of the American people, expressed through their unsolicited suffrages, calls me before you to pass through the solemnities preparatory to taking upon myself the duties of President of the United States for another term. For their approbation of my public conduct, through a period which has not been without its difficulties, and for this renewed expression of their confidence in my good intentions, I am at a loss for terms adequate to the expression of my gratitude. It shall be displayed to the extent of my humble abilities, in continued efforts so to administer the government, as to preserve their liberty and promote their happiness.

So many events have occurred within the last four years, which have necessarily called forth, sometimes under circumstances the most delicate and painful, my views of the principles and policy which ought to be pursued by the General Government, that I need on this occasion, but allude to a few leading considerations connected with some of them.

The foreign policy adopted by our government soon after the formation of our present Constitution, and very generally pursued by successive administrations, has been crowned with almost complete success, and has elevated our character among the nations of the earth. To do justice to all, and submit to wrong from none, has been, during my administration, its governing maxim; and so happy has been its results, that we are not only at peace with all the world, but have few causes of controversy, and those of minor importance, remaining unadjusted.

In the domestic policy of this government, there are two objects which especially deserve the attention of the people and their representatives, and which have been, and will continue to be, the subjects of my increasing solicitude. They are the preservation of the rights of the several states, and the integrity of the Union.

These great objects are necessarily connected, and can only be attained by an enlightened exercise of the powers of each within its appropriate sphere, in conformity with the public will constitutionally expressed. To this end, it becomes the duty of all to yield a ready and patriotic submission to the laws constitutionally enacted, and thereby promote and strengthen a proper confidence in those institutions of the several States and of the United States which the people themselves have ordained for their own government.

My experience in public concerns, and the observation of a life somewhat advanced, confirm the opinions long since imbibed by me, that the destruction of our state governments or the annihilation of their control over the local concerns of the people, would lead directly to revolution and anarchy, and finally to despotism and military domination. In proportion, therefore, as the general government encroaches upon the rights of the states, in the same proportion does it impair its own power and detract from its ability to fulfil the purposes of its creation. Solemnly impressed with these considerations, my countrymen will ever find me ready to exercise my constitutional powers in arresting measures which may directly or indirectly encroach upon the rights of the states, or tend to consolidate all political power in the General Government.

But of equal, and indeed of incalculable importance is the union of these States, and the sacred duty of all to contribute to its preservation by a liberal support of the General Government in the exercise of its just powers. You have been wisely admonished to "accustom yourselves to think and speak of the Union as of the palladium of your political safety and prosperity, watching for its preservation with jealous anxiety, discountenancing whatever may suggest even a suspicion that it can in any event be abandoned, and indignantly frowning upon the first dawning of any attempt to alienate any portion of our country from the rest, or to enfeeble the sacred ties which now link together the various parts." Without union our independence and liberty would never have been achieved—without union they can never be maintained. Divided into twenty-four, or even a smaller number of separate communities, we shall see our internal trade burdened with numberless restraints and exactions; communication between distant points and sections obstructed or cut off; our sons made soldiers to deluge with blood the fields they now till in peace; the mass of our people borne down and impoverished by taxes to support armies and navies; and military leaders at the head of their victorious legions becoming our law-givers and judges. The loss of liberty, of all good government, of peace, plenty and happiness, must inevitably follow a dissolution of the Union. In supporting it, therefore, we support all that is dear to freemen and the philanthropist.

The time at which I stand before you is full of interest. The eyes of all nations are fixed on our republic. The event of the existing crisis will be decisive in the opinion of mankind of the practicability of our federal system of government. Great is the stake placed in our hands: great is the responsibility which must rest upon the people of the United States. Let us realize the importance of the attitude in which we stand before the world. Let us exercise forbearance and firmness. Let us extricate our country from the dangers which surround it, and learn wisdom from the lessons they inculcate.

Deeply impressed with the truth of these observations, and under the obligation of that solemn oath which I am about to take, I shall continue to exert all my faculties to maintain the just powers of the constitution, and to transmit unimpaired to posterity the blessings of our federal Union. At the same time, it will be my aim to inculcate by my official acts, the necessity of exercising by the general government, those powers only that are clearly delegated; to encourage simplicity and economy in the expenditures of the government; to raise no more money from the people than may be requisite for these objects, and in a manner that will best promote the interests of all classes of the community, and of all portions of the Union. Constantly bearing in mind that, in entering into society "individuals must give up a share of liberty to preserve the rest," it will be my desire so to discharge my duties as to foster, with our brethren in all parts of the country, a spirit of liberal concession and compromise; and, by reconciling our fellow citizens to those partial sacrifices which they must unavoidably make, for the preservation of a greater good, to recommend our invaluable Government and Union to the confidence and affections of the American people.

Finally, it is my most fervent prayer to that Almighty Being before whom I now stand, and who has kept us in his hands from the infancy of our Republic to the present day, that he will so overrule all my intentions and actions, and inspire the hearts of my fellow citizens, that we may be preserved from dangers of all kinds, and continue forever a UNITED AND HAPPY PEOPLE.

ADJOURNMENT OF CONGRESS.
From the Baltimore Rep.

THE CONCLUSION.

The scene is now closed; and we are, for a while, done with looking to the doings and sayings of that body, with that intense interest, with those hopes and apprehensions which, for this some time past, has been felt throughout the country, if not throughout the world. The members are now wending their way homewards, some of whom are never to return in the character they have recently filled, and others to answer to their constituents for what they have done and said, and to learn from the elections yet to take place, whether or not they have conformed to their wishes, and have won their approbation or have excited their displeasure.

The session has been one of unexampled cloud, thunder and storm; and has been productive of the most extraordinary events.—Hopes and fears, as to the consequences of the measures that would be adopted have alternately succeeded each other in rapid succession, and such somersets have been turned, and such strange movements have been made, that it has been extremely difficult to know where to find certain members, or to form any idea respecting what would be likely to be done. But happily events have so turned up that we may venture to indulge the hope that peace will, at least for a season, be restored to the country, and that notwithstanding the apprehensions which have been felt of a dissolution of the Union and a civil war, the Union will be preserved, and harmony and happiness pervade the land.

This being the happy consequence, we rejoice at the result, notwithstanding the inconsistency in the conduct of some of the actors by whom it has been brought about; and notwithstanding, there are portions of which we do not entirely approve, and which, we are persuaded, can never be carried into effect. We will, however, indulge the hope that at a future day, more suited to calm consideration and deliberate action, the objectionable parts will be expunged, and the whole matter placed upon a substantial and durable foundation.

BIBLE CONVENTION FOR THE STATE OF MARYLAND.

The following is a copy of a Circular about being addressed to the Reverend Clergy and Bible Societies of our State:

BALTIMORE, March 2d, 1833.

Reverend and Dear Sirs

The *Young Men's Bible Society* of this city, in connexion with other Societies, has recently commenced a second time to supply the destitute families in our state with the Bible.

In the general supply of the state a few years since, there was often found a great want of *system* in our operations; in consequence of which the work was not as thoroughly accomplished in all cases as could have been desired. Having learned something from the past, we are of opinion, that with a little timely attention and exertion, the errors of former inexperience may not only be avoided in the present undertaking, but a system devised which will insure a regular and permanent supply of the Sacred Scriptures hereafter to every destitute household in our state.

In view of this contemplated re-supply, it has been thought by some of the friends of the cause here, that it would be extremely advantageous to establish such uniform plan of operations throughout the state as would secure the harmonious and efficient co-operation of ALL. For this purpose it has been suggested that A BIBLE CONVENTION FOR THE STATE OF MARYLAND *be held in the city of Baltimore on the first day of May next*, to which every Christian congregation and Bible Society in the state, and that part of the District of Columbia lying north of the Potomac, shall be invited to send one or more lay delegates, without regard to age; as it is neither expected nor desired that the work should devolve exclusively upon the *young men* of Maryland. The Society we represent is but the *organ* of this call upon our brethren throughout the state, and we hope it will be heartily responded to by those of every age and condition in life. When infidelity dares boldly to show its hideous front, and stalk abroad among us in open day; or its more deceptive, but not less dangerous shape, attempts to subvert those precious articles of our holy faith which are alike the refuge of the sinner and the consolation of the saint; surely it behoves the Christians of America to take the alarm in time, and make and *keep* their land a *land of Bibles*.

Many important suggestions are expected to claim the serious attention of the Convention, and its proceedings cannot fail, we think, to be regarded with no ordinary interest. It will prove a salutary example to the sister states of our confederacy, and by the Divine blessing must give a powerful impulse to the Bible cause throughout the Union. It is believed that it will be numerously and ably attended, affording gratifying evidence to our brethren abroad how much the Christians of Maryland love the truth and simplicity of the Bible, and how deep is the anxiety they feel that others may possess the heavenly boon.—We feel assured that no Bible Society or congregation of Christians within its boundaries, can consent to remain unrepresented in a body assembled for the avowed and only object of consulting upon the great interests of man's salvation in the wide dissemination of the Sacred Scriptures. Let us then meet in the name of our common Lord and Saviour, and amidst the cordial interchange of our friendly greetings, present to our country and the world a spectacle so solemn, so sublime, and so instructive, as that of an assemblage of Christians, of every sect and denomination,—sacrificing for a season their differences of opinion at the foot of the Cross,—the circulation of the BIBLE, *without note or comment*, their holy bond of union!

It is respectfully requested that this letter be submitted to the congregation under your pastoral charge, who are hereby invited to elect one or more lay delegates to the proposed convention as early as convenient. You will oblige us by immediately communicating the result to our Corresponding Secretary.

In behalf of the "*Young Men's Bible Society of Baltimore*," we have the honour to be, very respectfully, your obedient servants,

WM. P. LEMMON, President.
WM. GWYNN JONES, Corresp'dg. Sec.

☞All Editors throughout the state of Maryland and the District of Columbia, are respectfully requested to give the above one or more insertions in their respective papers.

We learn that three old offenders, Rinehart, Kelly, and Hurst, made their escape from the Maryland Penitentiary on Saturday evening last.—*Patriot.*

TO THE PUBLIC.

ON Sunday night, the 17th instant, FIVE MEN dressed in sailors' attire, arrived at Thomas' Point, in a ROW BOAT, or GIG very handsome, copper fastened, and her keel entirely coppered, painted black on the outside with a streak of white round the waist; the inside painted green, four oars and a mast, and the boat is without a rudder. These men (four of whom I took to be American seamen, the other a German) had considerable clothing with them, and stated they were on their way to Baltimore; they also stated that they had made their escape from a ship partly owned and commanded by Captain Webb, then at an chor off Richmond Harbour, James River; they did not discover or tell the name of the ship.

I HEREBY GIVE NOTICE, That the Boat is now in my possession at Thomas' Point Light House. The owner or owners can have her by identifying the property, and showing proper authority for the reception of said Boat.

PRINTING
Neatly executed at this
OFFICE.

PROSPECTUS

For publishing by subscription, a weekly Journal in Port-Tobacco, Charles county, Md. to be entitled

"THE PORT-TOBACCO PRESS,
And Charles County Advertiser."

IN presenting to the public the design of publishing a paper at Port-Tobacco, it will only be necessary briefly to explain the plan that is intended to be pursued.

Almost every county in the state has a newspaper printed in it, and it has long been a subject of surprise and regret, that the wealthy, intelligent and industrious population of the two counties, (St. Mary's and Charles) should have remained so long destitute of a paper printed and published within their limits. The projectors of the present plan, confident of a liberal support from an enlightened and generous public, have issued this prospectus with an intention of devoting themselves to usefulness, increasing (as far their humble means will extend,) the general stock of information, and enlarging the sphere of useful knowledge. Its columns will be yielded to Literature and the Muses. The current news of the day will be faithfully and correctly given, whether of a foreign or domestic nature; and the general principles of Religion and Morality strongly inculcated. With these views, it is hoped the intended publication will meet with liberal encouragement. It will be commenced as soon as a sufficient number of subscribers can be obtained.

It will be printed on a super-royal sheet with new and fashionable type. The price of subscription will be two dollars, if paid within three months, and two dollars and fifty cents if not paid until the expiration of the year.

A. GARRETT,
F. M. JARBOE.

☞Postmasters receiving copies of this Prospectus, are respectfully requested to exert their influence in procuring subscribers thereto, and forward the same, with the names of such as they may have obtained, to

A NEW, CHEAP AND POPULAR PERIODICAL.

WALDIE'S
SELECT CIRCULATING LIBRARY.

THE striking features of this periodical are, that books are published in it in a form which allows of their being carried by mail, and at a rate so reasonable, that every intelligent educated person in the community can procure them. The publisher receives from England all the new books of merit; and from these, selections are made from the best class of Novels, Memoirs, Travels, Sketches, Tales, and Biography. These are printed as rapidly as an extensive printing office will admit, and forwarded by mail, carefully packed so as to carry to the most distant post office in the Union, uninjured.

This periodical commenced in October, with the popular novel of Waldstein, or the Swedes in Prague, which cost in London six dollars; it is contained entire in two numbers and a half of the Circulating Library, costing subscribers less than twenty-five cents This was succeeded by the Memoirs of Lavalette, which cost the publisher to import eight dollars; it was likewise contained in the same space and at the same price. The sixth number commences the travels of Mr. Vigne, costing in London six dollars; it will be printed entire in the "Library" for at most thirty cents! This enumeration of prices the publisher trusts, with the facility of transportation by mail, will be sufficient to induce those who receive this prospectus, to use some exertion to extend the circulation of the work in their respective neighbourhoods, as, if encouraged hereafter as he has so far been, it is his intention to lay before the American public in this form all the best books which issue from the London press.

The price is five dollars for 52 numbers, which will contain as much matter as 1200 pages, or three volumes, of Rees's Cyclopædia. This volume will comprise at least from twenty-five to thirty entire works, printed on good paper, and with the same accuracy as book work. It will form two volumes of 416 pages each, well worthy of preservation for reference, and a valuable addition to every public and private library The publisher feels confident in stating, that the entire 52 numbers, when bound, will sell for more than the subscription price, as after a few more numbers are issued, no more will be printed than will supply actual paying subscribers.

Still further to increase the facilities of subscribers, the publisher has added another inducement for clubs to join together in their remittance. Twenty dollars will be received in full for the subscription of five individuals. This deduction will pay all postage.

Those who design to patronize this new and popular mode of publishing good books, will oblige the subscriber by forwarding their remittances as early as practicable. A five dollar note deposited in the post office will supply good reading to a family and circle of acquaintance for a whole year.

The gentleman who makes the selections for this periodical, to literary taste and education, has, from his situation, facilities for knowing what is popular and of high reputation possessed by few; to this he adds a proper sense of the responsibility he has assumed in catering for an extended and moral community. The publisher therefore confidently recommends the Circulating Library to heads of families, as a work which they need have no fear of introducing into any circle.

The ensuing number will contain a highly popular novel, by the English Opium Eater.

ADAM WALDIE,
Carpenter-street, near Seventh, under the Apprentices' Library, back of the Arcade, where subscriptions will be gratefully received.

Resolved in the affirmative.

Mr. White then offered said resolutions as a substitute, for the report of the committee.

Mr Heard offered as a substitute for the report and substitute the following resolutions:

Resolved by the General Assembly of Maryland, That the immediate extension of the Baltimore and Ohio Rail Road, as far as to Harper's Ferry, is an object of such importance to the interests of the people of this state, that it cannot be abandoned.

Resolved, That this general assembly regards the extension of the Chesapeake and Ohio Canal to the Coal Mines in Allegany, as an object of great concern to the people of this state.

Resolved, That this general Assembly deeply deplores the collision, which has unhappily existed, between the companies having charge of those two great works.

Resolved, As the sense of this general assembly, that neither company can expect to obtain the future favour or aid of this state, until those collisions are removed, so far as may depend on each company, respectively, so as to admit of the extension of the Rail Road to Harper's Ferry

Resolved, That as the common friend of those works, this state submits, to the consideration of the Chesapeake and Ohio Canal company, and of the Baltimore and Ohio Rail Road company, the following propositions, in the confident expectation that they will be prompty accepted, as the surest means of advancing the interests of their respective works:—

1st. That the Canal company agree to permit such portions of its grounds, between the present termination of the Rail Road at the Point of Rocks and Harper's Ferry, to be occupied by the Rail Road, as may be necessary for the convenient and economical construction of that work, provided the surface water line of the Canal shall, in no case, be contracted, to a width of less than forty feet.

2d. That the Rail Road company shall pay to the Canal company, all the additional expense which may be rendered necessary to the Canal by the construction of the Rail Road along the north or hill side of the canal. The amount of which expense shall be assessed by the board of commissioners hereinafter provided for.

3d. That the Rail Road company agree to the contraction of its graduated surface to a width of not less than twenty feet, at the difficult passes, and that said company relinquish all pretension to the occupation of the Maryland shore of the river Potomac, above Harper's Ferry, whilst the same may be occupied, or liable to be occupied, by the canal.

4th. That for all portions of the ground held by the Canal company, which may be occupied by the Rail Road, the Canal company shall be paid by the Rail Road company, such sum, as said ground cost the said Canal company.

5th. That a plan shall be arranged for crossing the canal and river, at or near Harper's Ferry, by a suitable bridge or bridges.

6th. That convenient crossing places shall be provided, at the expense of the Rail Road company, so as to permit the free and uninterrupted access of persons and produce to the canal, whenever necessary, between the Point of Rocks and Harper's Ferry,

7th. That if the canal should be kept out of use, after it shall have been completed to Harper's Ferry, or delayed in its completion to that point, during the construction of the Rail Road, the Canal company shall be indemnified therefor, by the Rail Road company; and if the two companies should not agree on the amount of indemnity, then its amount shall be ascertained by a board of arbitrators appointed in the manner, hereinafter provided, for the appointment of a board of commissioners, whose award shall be final and conclusive on both companies.

8th. That there shall be a board of commissioners, to consist of three engineers, one to be appointed by the governor of this state, and one by each of the said companies, who shall as act as arbitrators, under oath or affirmation, to deal impartially and arrange a plan of operations conformably to the spirit of the foregoing propositions, and in their judgments best calculated to prevent expense, loss, or injury to either company, and which may most effectually promote the permanency and utility of both works; and that their decision shall be obligatory upon both companies; and the Rail Road company shall within six months thereafter, construct all such parts of the Rail Road as may be in contact with the canal, and the plan of the operations prescribed by the board of commissioners shall be carried into execution, under the supervision of such engineer as the governor shall appoint for that purpose.

9th. The respective companies shall notify the governor of their acceptance of these propositions, on or before the fifteenth day of May next, and shall, at the same time, designate to him, the persons by them respectively appointed as commissioners in pursuance of the preceding proposition; and the governor shall thereupon appoint the commissioner on the part of this state; and the three commissioners, thus appointed, shall with as little delay as possible, proceed to discharge the duties hereinbefore assigned to them, and as soon as they shall have arranged a plan of operations accordingly, shall make report thereof to the governor and to each of said companies.

And be it further resolved by the general assembly of Maryland, That the governor be requested, to cause copies of these resolutions and propositions to be submitted to the Chesapeake an Ohio Canal company, and the Baltimore and Ohio Rail Road company, and that in doing so, he express, to those companies, the expectation of this general assembly, that the same will be readily acceded to by them respectively, in deference to the wishes and interests of the state of Maryland, and the very important influence, which the course adopted by them, at this juncture, will have upon the future prosperity of the works confided to their superintendency and direction.

REVISION OF THE LAWS.

Extract of a letter from a Senator of the State of New-York to the Chairman of the Committee of Ways and Means of the House of Delegates of Maryland:

SENATE CHAMBER,
Albany, March 4, 1833.

"My absence from the senate for several days prevented my receiving your favour of the 16th ult. until yesterday, and I hasten to answer it so far as I can now do so.

You are, I apprehend, entirely right in recommending a special session of your legislature for the purpose of revising your Statute law. The other course was adopted here in the first instance, and persevered in, until it was clearly found to be impracticable. The mingling of that matter with the ordinary business of legislation, was attended with many inconveniencies. The sessions were much prolonged, and it became manifest that some part of the business could not be properly attended to. Thus, when a particular chapter was referred to a committee, the attention of the members of that committee was unavoidably withdrawn by ordinary legislation, from that close attention which the subject demanded. And precisely so with both branches of the legislature, with this addition however, that whenever a subject was fairly entered upon, it became necessary either to proceed to its completion without interruption, or to commence again at another day, and go over again the ground which had already been partially occupied. This produced errors in the statutes—increased the sessions in point of time—sacrificed other business, and did not much advance the revision.

After trying this mode one or two sessions, our legislature had an extra session and completed the revision.

I am aware that I do not state to you all the difficulties which attended our attempt at revision at our ordinary sessions. I state to you however, the result of our experience.

But one consequence would manifest itself, that is, in the great labour which would devolve upon those members, who in every legislature are compelled to perform the principal part of the labour. The ordinary business is sufficiently onerous upon this class, and the addition of the burdens of revision, would put it out of their power to perform the duty which they would be willing to assume, and which others would expect from them.

I am not now able to state to you the expense—I have directed a statement to be made out, and in a few days I shall be able to transmit it to you, when I will write more fully upon both branches of your inquiry."

EASTON, (PA.) March 1.

SOMETHING NEW.

We witnessed a few days ago at the Swan Tavern of Mr. John Burt of this place, something which certainly deserves to be recorded among the inventions and discoveries of the present day. Mr. B. has succeeded in the profitable desideratum of making his fire pay for itself, by burning coal and limestone together, in nearly equal parts.—The fire must be kindled in the morning with pure coal, but through the day rather more limestone than coal is used. He thus saves several bushels of coal per week, and procures several bushels of lime. The process in stoves of the common construction is rather troublesome, as the lime must be taken out soon after it is thoroughly burnt, but Mr. B. hopes to construct a stove or cellar furnace which will answer a better purpose. To all appearances the stove emitted as much caloric as when filled with pure coal—the cylinder was as usual, in a red heat.

MARYLAND LEGISLATURE.

Mr. Nicols, presented a petition of the members of Cambridge Lodge, No 66, of accepted Masons, in Dorchester county, praying an act of incorporation.

Mr. Cottman, obtained leave to bring in a bill, to incorporate the Savings bank of Somerset and Worcester counties, at Salisbury.

Mr. Harper, from the committee on the constitution, delivered the following report—

The committee on the constitution, who were instructed to inquire into the expediency of limiting every alternate session of the general assembly, to the term of six weeks from the commencement thereof, have had the same under consideration, and beg leave respectfully to submit the following report:—

Upon an examination of the constitutions and customs of our sister states, it will be found that the legislatures of several, whose population and territorial extent greatly exceed those of Maryland, remain in session a shorter time than the general assembly of this state. In others, whose population and territorial extent are double and treble those of Maryland, the sessions of the legislature scarcely surpass ours in length. Even the national congress is content, in every alternate year, with a duration that but little exceeds the ordinary sessions of this body, being limited to a certain term by law. From these observations it may be fairly inferred, that the length of our sessions is disproportionate to the business to be transacted.

Every member of the general assembly must have perceived, that the expectation of a long term has the effect of inducing in the early part of every session a certain carelessness or negligence, both on the part of the public and in their representatives, which accumulates a mass of business most inconveniently and unnecessarily at the end. Experience has therefore, led your committee to believe, that as much business would be done, and as well done, as at present, if the sessions were a month shorter: provided, the day of their termination was fixed, and it was so understood and known by the members and by the public. The experiment is certainly one which deserves to be tried; and if it be found useful to have limited one session out of every two, our successors can extend the principle to both.

But one of the most important considerations connected with this subject, is that of economy. Exclusively of those expenditures which would be the same, whenever the same purposes were effected, whether in a longer or a shorter time, the daily expenses of the general assembly cannot be estimated at much less than five hundred dollars. The ordinary length of the session is two months and a half; and if every other session were contracted to one month and a half, the amount saved to the people, would be fifteen thousand dollars. Such a measure of economy ought not to be rejected in the present state of our finances.

In accordance with these views, which are respectfully submitted, your committee beg leave to report the following bill.

Mr. Turner reported a further additional supplementary act to the act, to establish orphans courts in the several counties of this state, passed at February session, 1777,

The committee on the constitution to whom were referred the numerous memorials and petitions of different parts of this state, and of the Reform Convention which recently assembled in Baltimore city, suggesting and recommending that the constitution ought to be changed in many particulars, and that a convention should be called for that purpose, having had the same under consideration and after bestowing upon the subject that attention which its importance demands, and beg leave, by way of report, to submit the following resolutions,

Resolved by the General Assembly of Maryland, That a majority of the people of this state are dissatisfied with many of the features of the present constitution, which they deem at war with republican principles.

Resolved, That the Declaration of Rights recognizes and asserts 'that all government of right originates from the people, is founded in compact only, and instituted solely for the good of the whole: That the people of this state ought to have the sole and exclusive right of regulating the internal government and police thereof.'

Resolved, That the principles thus broadly set forth by the framers of our constitution of the right of the people to remodel their organic law, whenever they deem such action necessary, are the true principles of republican government; for the authority of constitutions over governments, and of the sovereignty of the people over constitutions, are principles too dearly bought by our ancestors, and too firmly engrafted in the hearts of the people, to be ever surrendered.

Resolved, That experience having shewn that the mode presented for altering and amending the constitution, by two successive legislative enactments is ineffectual, for the purpose of giving to our form of government all those republican features, which public sentiment desire, and it being proper to take a fair expression of the sense of the voters of this state, on a subject of such deep concernment of their rights, their welfare and their happiness.—Therefore,

Resolved by the authority aforesaid, That at the annual election to be held on the first Monday of October next, the judges of each election district or ward, in the state, shall ask each qualified voter, when he deposits his ballot for members of congress, delegates to the legislature, or for sheriffs—whether he is in favour of a convention for altering the constitution, or whether he is opposed to a convention for that purpose; and the clerk shall keep two separate columns; on one side, he shall register those votes which are for a convention, and on the other those opposed to a convention, and the judges shall make return thereof, as is usual in cases of election and under like penalties.

Resolved, That should a majority of the people of this state, be found to be in favour of a convention, then, the next legislature which shall assemble thereafter, shall divide the state into districts of convenient size, containing as nearly as may be, an equal number of white inhabitants, without dividing a county; and to each district shall be assigned an equal number of delegates.

Resolved, That as soon as the said districts shall be arranged, and the number shall be designated by law, the governor shall issue his proclamation, to be accompanied by the law requiring the voters to assemble in their respective districts to elect delegates to a convention to be held at such convenient time and place as may be fixed by law, for the purpose of making a constitution and form of government, to be submitted to the people of Maryland, for their ratification or rejection.

Resolved by the General Assembly of Maryland, That the treasurer of the western shore, be, and he is hereby directed to pay, out of an unappropriated money in the treasury, in semi-annual payments, to the commissioners of the school fund, for the several counties of this state, or other persons having charge of the same, the sum of two hundred dollars annually, for each county, to be by them employed in their discretion, to colleges, academies or schools in each county, for the education of poor children therein.

Whereas, by resolution No. 34, passed by the General Assembly of Maryland, at December session, eighteen hundred and thirty-three, requiring the treasurer of the western shore to equalize the donations granted to the academies and schools in the several counties of this state, so as to give eight hundred dollars for each county.

And Whereas, the legislature have been petitioned by sundry citizens of Calvert county, that the treasurer of the western shore, be, and they are hereby authorised to pay to the trustees of Prince Frederick-town Academy, three hundred dollars out of the sum allotted as aforesaid to said county,—Therefore,

Resolved by the General Assembly of Maryland, That the treasurer of the western shore of this state, be hereby authorised and directed to pay to the Trustees of Prince Frederick-town Academy in Calvert county, three hundred dollars, which will become due for said county on the first day of June, 1833, in virtue of the aforesaid resolution, and annually thereafter the same sum.

Resolved, That said school shall teach one poor child for each hundred dollars so to be

PROPOSALS

For publishing by Subscription, a small volume of

THE SERMONS

OF THE LATE

RT. REV. JAMES KEMP, D. D.

Bishop of the P. E. Church of Md. together with the Funeral Address delivered in St. Paul's Church, containing some brief biographical notices.

SEVERAL considerations combine to re
commend the publication of the proposed
volume. It is desirable to preserve a memo-
rial of all who have held a relation to the
Church in this country, so interesting and im-
portant as that of its Bishops. Their alliance
is no doubt peculiarly endearing to the diocess
over which they are chosen to preside, and the
power of their doctrine and example is most
felt in those parishes among which they have
gone, with the authority of a ruler, the vigi-
lance of a shepherd, and the tenderness of a
parent. Yet do their character and influence
belong to the whole ecclesiastical body of
which they were legislators; and it is both gra
tifying and profitable to find them with one
accord maintaining "the faith once delivered
to the Saints," and breathing the spirit of that
"form of sound words," equally scriptural
and beautiful, to which successive ages only
add increasing veneration.

At the same time, however, that this end is
to be effected, the present volume is regarded
principally "as a means of affording to every
member of the diocess of Maryland the privi-
lege of co-operating in the erection of a Monu-
ment to their deceased and much venerated Bi-
shop." To all he has ministered in the discharge
of his office as Chief Shepherd of the flock; and
to very many, prior to his election to this charge,
was he the instrument of imparting the most
precious truths and consolations. It is be-
lieved that it will be a source of lively gratifi
cation to such persons that they may preserve
in their own homes and hearts a memorial of
his affectionate, and judicious, and evangeli-
cal instructions, while they perpetuate his
name, and manifest their grateful sense of his
worth by contributing to rear a monumental
pile upon his grave. That the privilege may
be universally enjoyed, the volume will be
small, and the terms exceedingly low; and
those interested in promoting the several ob-
jects of the publication, can attain their end
by increasing the number of copies subscribed
for.

The work will be printed on fine paper, and
comprised in a small duodecimo volume, and
delivered to subscribers neatly bound in cloth
backs, at $1 00 per copy.

☞ Having ascertained that sufficient pa
tronage will be extended to this work to war-
rant the publication, it will be immediately
put to press. Persons disposed to promote
the ultimate object, are requested to furnish
their subscriptions to the publisher without
delay. Address

TO THE PUBLIC.

ON Sunday night, the 17th instant, FIVE
MEN dressed in sailors' attire, arrived
at Thomas' Point, in a ROW BOAT, or GIG,
very handsome, copper fastened, and her keel
entirely coppered, painted black on the outside
with a streak of white round the waist; the in
side painted green, four oars and a mast, and
the boat is without a rudder. These men (four
of whom I took to be American seamen, the o-
ther a German,) had considerable clothing
with them, and stated they were on their way
to Baltimore; they also stated that they had
made their escape from a ship partly owned
and commanded by Captain Webb, then at an-
chor off Richmond Harbour, James River; they
did not discover or tell the name of the ship.

I HEREBY GIVE NOTICE, That the
Boat is now in my possession at Thomas'
Point Light House. The owner or owners can
have her by identifying the property, and shew
ing proper authority for the reception of said
Boat.

Road to proceed along the valley of the Potomac, north of the Canal, to Harper's Ferry, and to cross the canal at Harper's Ferry.

There were other matters of detail which your committee do not deem it necessary to enumerate, as they are of minor importance, and appertain rather to definitive arrangement, than to preliminary propositions. All of which is respectfully submitted.

Which was read the first time and ordered to lie on the table.

Mr. Harper submitted the following order, which was twice read and adopted:

Ordered, That a committee of seven members be appointed by the chair, to whom shall be referred the propositions of the President of the Chesapeake and Ohio Canal Company, and all others papers before this house, relating to the difficulties that have arisen between the said company and the Baltimore and Ohio Rail Road Company; and that the said committee have power to sit during the session of the house, and report by bill or otherwise.

In pursuance whereof, the speaker appointed Messrs. Pratt, Dudley, Harris, Harding, Duvall of A. A. Millar and Nicols, the committee.

Mr. Gantt submitted the following message, which was read, assented to, and sent to the senate:

Gentlemen of the senate—

We have received your message in answer to one from this house, in which we proposed to elect two additional directors, on the part of this state, in the Farmers' Bank of Maryland, and accede thereto.

We therefore propose, with the concurrence of your honourable body, to proceed, to-morrow at 12 o'clock, to elect the same.

The bill reported by Mr. Jenkins, chairman of the committee on education, to incorporate the Vienna Academy, was taken up for consideration.

On motion by Mr. Bruff, the seventh section of said bill was stricken out.

The said bill was then read the second time as amended, and passed.

The bill reported by Mr. Nicols to incorporate the town, commonly called and known by the name of East New-Market, in Dorchester county.

The bill reported by Mr. Harper, from the committee on grievances and courts of justice, entitled, a supplement to an act declaring the power of the governor in certain criminal cases passed at November session, 1793, chap. 82.

And, the bill reported by Mr. Sutton for the preservation of wild fowl in the waters of Swan Creek, Spissatie Narrows, Rumney Creek, Bus River and Gunpowder River, in Harford county.

Were severally taken up for consideration, read the second time, and passed.

The hour having arrived for taking up the order of the day, the house proceeded to consider the order of the day, being the bill reported by Mr. Pratt, entitled, A supplement to an act to reduce into one the several acts of assembly, respecting elections, and to regulate the said elections.

Mr. Bruff moved to recommit the bill to a select committee, to be composed of one member from each county and the cities of Baltimore and Annapolis.

Mr. Harris moved to amend said motion, by adding these words, 'in addition to the committee already appointed upon this subject;'

Determined in the negative.

The question then recurred upon the motion of Mr. Bruff;

Resolved in the affirmative.

The speaker thereupon appointed Messrs. Bruff, Harris, Hearne, Elliott, Kent, Merrick, Turner, Jones, Wright, of Dor. Evans, Edelen, Hoobs, Roberts, Millborne, Johnson, Johns, Carter, Jenkins, Mason, White, and Lantz, the committee.

The bill reported by Mr. Harper to provide permanent salaries for the judges of Baltimore city court, passed at December session 1816, ch. 227, was taken up for consideration and read the second time;

Mr. Teackle moved to refer said bill to the consideration of the next general assembly of Maryland;

Resolved in the affirmative.

The clerk of the senate returned the bill to authorise the clerk of Allegany county to record a deed from Nicholas Baer and Catharine his wife, to John Baer, endorsed, 'will not pass;'

Also, a resolution relative to the State Map, endorsed, 'assented to,' ordered to be engrossed;

And, delivered a bill originated in, and passed by the senate, entitled, a further supplement to the act authorising the appointing of inspectors, and wood corders, and to regulate the cording of fire-wood brought by water to the city of Baltimore;

Also, the following message,

Gentlemen of the House of Delegates,

The great importance of the undertaking of the Chesapeake and Ohio Canal Company, and of the Baltimore and Ohio Rail Road Company, urges us to promote as far as possible, such an arrangement of the conflicting views of the two companies in the prosecution of their projects, as may tend to accomplish the interesting objects of each. To ascertain such plan as may be practicable for such an end, and that the general assembly may have submitted to it such expedients for its action, as may effect the desired result, we have appointed as a committee upon the part of the senate, Messrs. Mayer, Emory and Pigman, to join such committee as may be named by your honourable body, upon the same subject.

Mr. Willson, from the committee delivered the following report:—

The committee appointed to visit the Maryland Hospital, in conjunction with the gentlemen appointed by the senate, have discharged the duties assigned them, and ask permission to present the following report:—

Having carefully examined the exterior of the building, and directed our observation to its various internal concerns, we regret to say that its general state of dilapitation and decay presents the Maryland Hospital to our view, greatly behind all other similar institutions to which our attention has been directed, both as it regards the state of repair, and its domestic arrangements, which necessarily directed the attention of the committee to some general plan of resuscitating the building from its present state of waste and ruin, and giving to its internal concerns such regulation and management as will better adapt it to the liberal and philanthropic object entertained by Maryland at the time of its incorporation. In doing which, we beg leave to call the attention of the legislature to those points which seem most important and consistent with a proper regard to the financial concern of the state, and absolute necessity of the institution. In painting out and inside window shutters, and repairing the area and sewers, re-flooring the lower cells of the new building, furniture of every sort and kind, and a better plan for heating the cells; these are the points which require immediate attention; indeed the building will be seriously injured, unless the sewers be speedily repaired; the committee is well aware of the necessity on the part of the state of being cautious in the disbursements of its funds, and therefore refrain from suggesting many things which are deemed essential to the completion and character of the institution, but cannot refrain from suggesting the importance, and absolute necessity to the welfare of the institution of obtaining possession by purchase of the lot of ground, in front of the Hospital; the local situation of the lot extending within a few feet of the front exterior of the building, makes its possession of great value to the institution, for the important purposes of recreation, proper ventilation, &c. To answer the several indications specified above, we submit to the candid consideration of the legislature, the following resolutions.

Resolved by the General Assembly of Maryland, That the treasurer of the western shore, be, and he is hereby authorised and directed to pay over to the board of visitors of the Maryland Hospital, at such time or times as they may require, the sum of five thousand dollars, out of any money in the treasury not otherwise appropriated.

Resolved, That the board of visitors give bond to the State of Maryland, to be approved by his Excellency the Governor, in the sum of ten thousand dollars, for the faithful and proper application of the above specified sum.

Which was read the first time, and ordered to lie on the table.

Mr. Johnson, by leave of the house, reported a bill, entitled, An act for the division of Baltimore and Frederick counties, and for erecting a new one by the name of Carroll;

Which was read the first time, and ordered to lie on the table.

Mr. Pratt submitted the following message, which was read and assented to:—

Gentlemen of the Senate,

We have received your message proposing the appointment of a joint committee in relation to the disputes existing between the Chesapeake and Ohio Canal Company, and Baltimore and Ohio Rail Road Company and assent thereto. We have appointed on the part of this house, Messrs. Pratt, Dudley, Harding, Duvall, of A. A. Millar, Nicols and Harris.

The house then adjoured.

PRINTING
Neatly executed at this OFFICE.

PROSPECTUS

For publishing by subscription, a weekly Journal in Port-Tobacco, Charles county, Md. to be entitled

"THE PORT-TOBACCO PRESS,
And Charles County Advertiser."

IN presenting to the public the design of publishing a paper at Port-Tobacco, it will only be necessary briefly to explain the plan that is intended to be pursued.

Almost every county in the state has a newspaper printed in it, and it has long been a subject of surprise and regret, that the wealthy, intelligent and industrious population of the two counties, (St. Mary's and Charles) should have remained so long destitute of a paper printed and published within their limits. The projectors of the present plan, confident of a liberal support from an enlightened and generous public, have issued this prospectus with an intention of devoting themselves to usefulness, increasing (as far their humble means will extend,) the general stock of information, and enlarging the sphere of useful knowledge. Its columns will be yielded to Literature and the Muses. The current news of the day will be faithfully and correctly given, whether of a foreign or domestic nature; and the general principles of Religion and Morality strongly inculcated. With these views, it is hoped the intended publication will meet with liberal encouragement. It will be commenced as soon as a sufficient number of subscribers can be obtained.

It will be printed on a super-royal sheet, with new and fashionable type. The price of subscription will be two dollars, if paid within three months, and two dollars and fifty cents if not paid until the expiration of the year.

A. GARRETT,
F. M. JARBOE.

☞ Postmasters receiving copies of this Prospectus, are respectfully requested to exert their influence in procuring subscribers thereto, and forward the same, with the names of such as they may have obtained, to

A NEW, CHEAP AND POPULAR PERIODICAL.

WALDIE'S
SELECT CIRCULATING LIBRARY.

THE striking features of this periodical are, that books are published in it in a form which allows of their being carried by mail, and at a rate so reasonable, that every intelligent educated person in the community can procure them. The publisher receives from England all the new books of merit, and from these, selections are made from the best class of Novels, Memoirs, Travels, Sketches, Tales, and Biography. These are printed as rapidly as an extensive printing office will admit, and forwarded by mail, carefully packed so as to carry to the most distant post office in the Union, uninjured.

This periodical commenced in October, with the popular novel of Waldstein, or the Swedes in Prague, which cost in London six dollars; it is contained entire in two numbers and a half of the Circulating Library, costing subscribers less than twenty-five cents This was succeeded by the Memoirs of Lavallette, which cost the publisher to import eight dollars: it was likewise contained in the same space and at the same price. The sixth number commences the travels of Mr. Vigne, costing in London six dollars; it will be printed entire in the "Library" for at most thirty cents! This enumeration of prices the publisher trusts, with the facility of transportation by mail, will be sufficient to induce those who receive this prospectus, to use some exertion to extend the circulation of the work in their respective neighbourhoods, as, if encouraged hereafter as he has so far been, it is his intention to lay before the American public in this form all the best books which issue from the London press.

The price is five dollars for 52 numbers, which will contain as much matter as 1200 pages, or three volumes, of Rees's Cyclopædia. This volume will comprise at least from twenty-five to thirty entire works, printed on good paper, and with the same accuracy as book work. It will form two volumes of 416 pages each, well worthy of preservation for reference, and a valuable addition to every public and private library. The publisher feels confident in stating, that the entire 52 numbers, when bound, will sell for more than the subscription price, as after a few more numbers are issued, no more will be printed than will supply actual paying subscribers.

Still further to increase the facilities of subscribers, the publisher has added another inducement for clubs to join together in their remittance. Twenty dollars will be received in full for the subscription of five individuals. This deduction will pay all postage.

Those who design to patronize this new and popular mode of publishing good books, will oblige the subscriber by forwarding their remittances as early as practicable. A five dollar note deposited in the post office will supply good reading to a family and circle of acquaintance for a whole year.

The gentleman who makes the selections for this periodical, to literary taste and education, has, from his situation, facilities for knowing what is popular and of high reputation possessed by few; to this he adds a proper sense of the responsibility he has assumed in catering for an extended and moral community. The publisher therefore confidently recommends the Circulating Library to heads of families, as a work which they need have no fear of introducing into any circle.

The ensuing number will contain a highly popular novel, by the English Opium Eater.

ADAM WALDIE,

Carpenter-street, near Seventh, under the Apprentices' Library, back of the Arcade, where subscriptions will be gratefully received.

BIBLE CONVENTION FOR THE STATE OF MARYLAND.

The following is a copy of a Circular about being addressed to the Reverend Clergy and Bible Societies of our State:

BALTIMORE, March 2d, 1833.

Reverend and Dear Sir:

The *Young Men's Bible Society* of this city, in connexion with other Societies, has recently commenced a second time to supply the destitute families in our state with the Bible.

In the general supply of the state a few years since, there was often found a great want of *system* in our operations; in consequence of which the work was not as thoroughly accomplished in all cases as could have been desired. Having learned something from the past, we are of opinion, that with a little timely attention and exertion, the errors of former inexperience may not only be avoided in the present undertaking, but a system devised which will insure a regular and permanent supply of the Sacred Scriptures hereafter to every destitute household in our state.

In view of this contemplated re-supply, it has been thought by some of the friends of the cause here, that it would be extremely advantageous to establish such uniform plan of operations throughout the state as would secure the harmonious and efficient co-operation of ALL. For this purpose it has been suggested that A BIBLE CONVENTION FOR THE STATE OF MARYLAND *be held in the city of Baltimore on the first day of May next*, to which every Christian congregation and Bible Society in the state, and that part of the District of Columbia lying north of the Potomac, shall be invited to send one or more lay delegates, without regard to age; as it is neither expected nor desired that the work should devolve exclusively upon the *young men* of Maryland. The Society we represent puts forth the *organ* of this call upon our brethren throughout the state, and we hope it will be heartily responded to by those of every age and condition in life. When infidelity dares boldly to show its hideous front, and stalk abroad among us in open day; or its more deceptive, but not less dangerous shape, attempts to subvert those precious articles of our holy faith which are alike the refuge of the sinner and the consolation of the saint; surely it behoves the Christians of America to take the alarm in time, and make and *keep* their land a land of Bibles.

Many important suggestions are expected to claim the serious attention of the Convention, and its proceedings cannot fail, we think, to be regarded with no ordinary interest. It will prove a salutary example to the sister states of our confederacy, and by the Divine blessing must give a powerful impulse to the noble cause throughout the Union. It is believed that it will be numerously and ably attended, affording gratifying evidence to our brethren abroad how much the Christians of Maryland love the truth and simplicity of the Bible, and how deep is the anxiety they feel that others may possess the heavenly boon.—We feel assured that no Bible Society or congregation of Christians within its boundaries, will consent to remain unrepresented in a body assembled for the avowed and only object of consulting upon the great interests of man's salvation in the wide dissemination of the Sacred Scriptures. Let us then meet in the name of our common Lord and Saviour, and amidst the cordial interchange of our kindly greetings, present to our country and the world a spectacle so solemn, so sublime, and so instructive, as that of an assemblage of Christians, of every sect and denomination,—sacrificing for a season their differences of opinion at the foot of the Cross,—the circulation of the BIBLE, *without note or comment*, their holy bond of union!

It is respectfully requested that this letter be submitted to the congregation under your pastoral charge, who are hereby invited to elect one or more lay delegates to the proposed convention as early as convenient. You will oblige us by immediately communicating the result to our Corresponding Secretary.

In behalf of the "*Young Men's Bible Society of Baltimore*," we have the honour to be very respectfully, your obedient servants,

WM. P. LEMMON, President.
M. GWYNN JONES, Corresp'dg. Sec.

By the Senate,
March, 12th, 1833.

Gentlemen of the House of Delegates,

The peculiarly arduous duties of the office of chief judge of the 5th Judicial District, the present incumbent of which is also chief judge of the court of appeals, and the inadequate indemnity which the salary of that officer affords for his expenses, and for the time occupied in his judicial labours, appear to require of the general assembly to consider the propriety of some increased compensation for the important services of that station.

Being incompetent constitutionally to originate any provision that might appear proper for the case in question, we would respectfully submit the subject to the consideration of your honourable body.

The house then adjourned.

Thursday, March 14, 1833.

Determined in the negative.

The bill from the senate, to repeal an act passed at December session, 1829, to provide for the election of the levy court of Queen Anne's county, by the people, passed by this house on yesterday with an amendment, was returned to the senate.

Mr. Schley presented a petition of Mary Ann Paxton, of Frederick county, praying to be divorced a vinculo matrimonii, from her husband Robert Paxton.

And, Mr. Harris presented a petition of sundry citizens of Saint Mary's county, praying for the repeal of the 28th section of an act, for founding a college on the western shore of this state, passed November session 1784, chapter 37, so far as relates to Saint Mary's county.

Mr. Heard, from the committee on the militia, delivered the following report:—

The committee on the militia, to whom was referred an order of the house of delegates of the 25th February last, instructing them to examine into the state of the public arms now in the armory at Annapolis; also, to inquire into the expediency of distributing the same amongst the militia throughout the state, and abolish the offices of armorers of the state, have had the same under consideration, and beg leave to report:

That they have examined the arms now in the armory at Annapolis, and find that there are about one thousand muskets, and some few rifles that will require a small expenditure to put them in a condition to prevent them from further injury. These arms consist of such as have been in the hands of the militia, and returned in bad order; and a small quantity that was received from the general government as a part of our quota annually distributed amongst the states, which were injured by being exposed to wet or dampness. With the exception of those, the balance of the arms were in excellent condition. By reference to the reports from the armorers at Easton and Frederick, the committee find that most of the public arms at those places want cleaning, it will therefore be necessary to have them also put in good condition, so that they may not be destroyed. Your committee therefore recommend to the legislature the passage of a resolution authorising the executive to have those arms cleaned, and put in good order. A small expenditure will be sufficient at this time to do it, and will save the state from a considerable loss: for your committee are fully convinced that a portion of the arms requiring cleansing will, if not attended to at once, become valueless; and the committee are of opinion that after the arms shall have been put in good condition, that it ought to be the duty of the different armorers to keep them so.

Your committee are decidedly of opinion that it is not expedient to distribute the arms amongst the militia throughout the state. We know from experience that they will not take that care of them which is necessary to keep them in the order proper for actual service, this is proved conclusively by the wretched condition in which the arms were found to be at the close of the late war, when they were collected together, and, in several instances, when arms have been distributed to uniform companies, they have been returned so much damaged from neglect, that it will be difficult to repair them so as to render them fit to be used in time of war. The number of arms now in the different armories of the state amount to twelve pieces of cannon, six thousand, three hundred and sixty-nine muskets, eight hundred and forty-one rifles, three hundred and ninety-nine swords, and three hundred and forty-two pistols, and a large amount of other property consisting of ammunition, camp equipage, accoutrements, &c. worth in all at least sixty thousand dollars. Your committee believe those articles could not be purchased for any thing like that sum, and further they could not be replaced when wanted. Your committee therefore think it would not be wise to hazard the loss of so large an amount of property by distributing it amongst the militia at large, in order to save the small sum which the state has to pay annually for its preservation: and so long as it shall be kept together the state will have it under its control, so that when any necessity may occur for its use it will always be ready; but if it should be distributed amongst the militia at large, it will be partially destroyed, and be attended with much difficulty and expense to get it together, should it become necessary to do so. Your committee would further recommend, that in future, it would be better to distribute to uniform companies such arms as have been partially injured; they would answer as well for purposes of training in time of peace as the best; and should they be destroyed, the loss would not be so great.

They recommend the passage of the following resolutions:—

Resolved by the general assembly of Maryland, That the executive be and they are hereby authorised to cause such of the arms as may require it, in the different armories of the state, to be cleaned and put in good order, under the superintendence of the armorers, so that they may be preserved from further injury by rust;—and the treasurer of the western shore is hereby required to pay to the order of the executive, any sum or sums that may be necessary for that purpose.

Resolved, That it shall be the duty of the several armorers of the state, after the arms in their respective armories shall have been put in good condition, to keep them so, and defray the expense thereof out of their salaries; and the Adjutant General shall inspect the arms in the armory at Annapolis as now required, and in future shall cause those in the armories at Easton and Frederick, also to be inspected annually, and notice the same in his annual report to the executive.

On motion by Mr. Johnson, said bill was further amended, by adding at the end thereof, the following proviso—

Provided nevertheless, that at the next annual election in October, the judges of election for the counties of Frederick and Baltimore, within the limits of the new county herein designated, shall ask each qualified voter, whether he is for or against the establishing of the new county, and in those districts which may be segregated by the said county lines shall vote at their usual places of election, and the judges shall keep two separate columns open, in order that all those votes living within the limits of the new county may have their names recorded for or against the new county, and should a majority in either that part of the new county taken from Baltimore, or a majority in that part of the new county taken from Frederick, be against the new county this law shall be inoperative; but should a majority of the voters within both those parts of Frederick and Baltimore counties taken within the designated limits be in favour of the new county, then this law shall be operative.

OFFICIAL.
NAVY DEPARTMENT.

LIBERIA.

Extract from a letter from Lieut. Com'dg. Jas. McIntosh, to the Secretary of the Navy, dated

"U. S. Schr. Porpoise,
Island of St. Thomas,
February 19, 1833.

"I have the honour to inform you that I anchored in this port this morning in 28 days from Mesurado and 19 from the Coast of Africa. After leaving Cape Mesurado, I continued cruising along the coast northerly to the latitude of river Pongo and Cape Vigo, and left soundings on the morning of the first, a little south of the Busagos Shoals.

* * * "I enclose you a list of American vessels boarded since I left the United States; a very large proportion of them on the Coast of Africa, and the number engaged in this trade is rapidly increasing.

* * * "My time at the Colony, as you will readily perceive, was too limited to afford me an opportunity of judging correctly of the improvements and present state of the colonists. They appeared, however, to be governed by good and salutary laws; they are moral in their habits, kind and hospitable to strangers, improving in commerce, adding to their domestic comforts, and increasing in wealth. There is a difficulty they contend against which I deem a very serious one; it arises from the number of persons sent out as colonists who have just been emancipated, never before compelled to provide for themselves, and without the necessary means of doing so, they almost invariably, so soon as the time elapses that they are provided for by the Colony, become paupers on the more industrious, or die in many instances from starvation."

TEN DAYS LATER FROM EUROPE.

The Packet ship Caledonia, Capt. Graham, arrived at New York on Sunday, bringing London and Liverpool papers to the 4th ult. being ten days later than the information furnished yesterday by the Silas Richards. We copy the following summary from the *Gazette* of Monday, being the only New York paper received.

It was reported in London on the 2d ultimo that important dispatches were sent off by Lord Palmerston to the English Consul at Oporto, and Lord Wm. Russel at Lisbon, relating to the measures the British Government intended adopting. Great hopes were entertained by Don Pedro's party, that Lord Palmerston had at length agreed to put an end to the struggle, and acknowledge Donna Maria as Queen.

A French paper gives a report that the Emperor of Russia refuses to receive the French Ambassador, Marshal Maison, and the English Ambassador, Stratford Canning; but the report is not believed by the London Globe.

The Duchess of Berry, was ill, and the French Government had despatched two eminent physicians to attend her. There were some ungenerous reports on this subject.

The London papers give copious extracts from the American papers, in relation to the affairs of South Carolina. The Globe observes, 'In spite of all the wrath and denouncement of the Nullifiers, the Union party in South Carolina seems very strong, and in all are determined to support the President.'

The Dutch and Belgian question seems to remain in *statu quo*.—The only article we notice on the subject is the following:—On the 25th January the Dutch Council of Ministers assembled. The King presided in person. The last despatches from London was the subject, but this sitting had not concluded the discussion of them. In a letter from the Hague, dated the 25th, it is stated 'that these despatches are still under consideration, and the answers not yet determined upon. The negotiations at London are not to be continued unless the Schelit is again opened, whilst our Government requires that the prisoners and ships be previously released. It appears by the last accounts from London, that the detention of our ships is still rigorously enforced.' And as respects the opening of the river, we find it stated as a report prevailing at the Hague, that the Dutch Government had given orders to open the Scheldt for Austrian, Russian, and Prussian ships, and has declared its readiness to do the same for the French and English vessels, as soon as their governments gave orders for removing the embargo upon Dutch ships.

CONSTANTINOPLE.

The following account of a great battle between the armies of the Grand Sultan, and the Egyptians, in which the former was defeated, with the capture of the Grand Vizier (the Prime minister of Turkey) is the most important item by this arrival, It is as follows:

Constantinople, Dec. 26.—The greatest gloom prevails here. The Sultan and his people appear to have fallen into a state of apathy, indicative of a total dissolution. The former gives up his case as desperate, and does not venture to excite the people's minds by artificial means, lest he should not be able to calm them again, and keep them within bounds. The unfortunate result of the battle of Koniah, and the captivity of the Grand Vizier, leaves the capital without means of defence. There are still, perhaps, 30,000 Turkish troops dispersed in Asia Minor, and 10,000 regulars in reserve, but their spirit does not correspond with the threatening danger, nor is there any able leader possessing sufficient self-confidence, and who is considered as able to restore good fortune to the standards of the Sultan. Redschid Pacha was the only man possessed of these qualifications. His former good fortune has deserted him, and gone over to his younger adversary. He fought valiantly, and when his defeat was decided, devoted himself to death, which, however, he did not find. Superior to his adversary in the number of his troops, he unhappily did not act with prudence, which an able General should never loose sight of. He resolved on the 21st to fight a battle which should decide the campaign at one blow. With this view he followed Ibrahim into the defiles of Karaman to attack him there. His measures were nearly as follows:—the main body of the Sultan's troops, about 42,000 in number, chiefly Albanians, and 500 of the Grand Vizier's household troops under his own command, were to make the principal attack on the centre of the Egyptians, while the Turkish cavalry divided into two corps of 6,000 men each, was to engage the wings of Ibrahim's army, and attack when it should see an opportunity. Ibrahim, perhaps, guessed this plan, and favoured by the defiles had sent strong columns against the Grand Vizier's wing, leaving in the centre only sufficient troops to cover his movements. He had scarcely reached the extremity of the wings of the Grand Vizier, when he impetuously attacked the Turkish cavalry and dispersed it, and then attacked the Grand Vizier himself on both flanks.

Unprepared for this attack, and engaged with the Egyptian centre, which he had already broken, he hastily collected some of his best troops to oppose the Egyptians, but in vain. Nothing remained but to make the enemy pay as dear as possible for the victory, which was unavoidable; this was done, and the Egyptians did purchase their triumph by a sanguinary conflict of six hours' duration. The loss on each side was nearly equal.—When the Albanians were dispersed, the Grand Vizier, with his faithful household troops defended himself to the utmost, till he was wounded and taken prisoner. The Egyptians are said to be now so weakened, that even now, if the Turkish troops in Asia Minor could be assembled quickly enough, they might be compelled to make a most dangerous retreat. But they need not fear this.

There is no genius or spirit in the Councils of the Sultan; meantime the Emperor Nicholas is acting with the greatest magnanimity. Count Murawieff is gone to Alexandria to try to make peace, and is to threaten Mehemet Ali with the displeasure of the Emperor, who will consider him as a rebel against the Sultan, if he does not return to his obedience.

We are authorised to announce to the Voters of Annapolis, and Anne-Arundel county, that ROBERT WELCH of Ben. is a Candidate for the next Sheriffalty.

TO THE PUBLIC.

THE subscriber, in justice to himself and business, feels called upon to appear before the public and state that he has been misrepresented in the prices given by him for the raw material in the line of his business, namely, Hides and Skins. It has been told that I give but 4 cents for Hides, while the speculator says, I will give you 4½ *cents*—and in some cases the speculator has doubled his money on the country-man for his hide. I have not, since I have been in the business, given less than 5 cents per pound, for good green Hides. I will at all times give a fair Baltimore price. I now offer the public in CASH, the following prices:

GREEN HIDES, 5 cts.
DRY HIDES, 11 cts. per lb.

Persons having Hides to sell, ought to sell them to the *manufacturer* of the Hide, who will at all times give more than the speculator. I can at all times be found at my Tan Yard next below the store of the Messrs. Millers, where I will give the highest Baltimore price.

Respectfully,
DAN'L. T. HYDE.

OFFICIAL.
NAVY DEPARTMENT.

LIBERIA.

Extract from a letter from Lieut. Com'dg. Jas. McIntosh, to the Secretary of the Navy, dated

"U. S. Schr. Porpoise,
Island of St. Thomas,
February 19, 1833.

"I have the honour to inform you that I anchored in this port this morning in 28 days from Mesurado and 19 from the Coast of Africa. After leaving Cape Mesurado, I continued cruising along the coast northerly to the latitude of river Pongo and Cape Vigo, and left soundings on the morning of the first, a little south of the Busagos Shoals.

* * * "I enclose you a list of American vessels boarded since I left the United States; a very large proportion of them on the Coast of Africa, and the number engaged in this trade is rapidly increasing.

* * * "My time at the Colony, as you will readily perceive, was too limited to afford me an opportunity of judging correctly of the improvements and present state of the colonists. They appeared, however, to be governed by good and salutary laws; they are moral in their habits, kind and hospitable to strangers, improving in commerce, adding to their domestic comforts, and increasing in wealth. There is a difficulty they contend against which I deem a very serious one; it arises from the number of persons sent out as colonists who have just been emancipated, never before compelled to provide for themselves, and without the necessary means of doing so, they almost invariably, so soon as the time elapses that they are provided for by the Colony, become paupers on the more industrious, or die in many instances from starvation."

TEN DAYS LATER FROM EUROPE.

The Packet ship Caledonia, Capt. Graham, arrived at New York on Sunday, bringing London and Liverpool papers to the 4th ult. being ten days later than the information furnished yesterday by the Silas Richards. We copy the following summary from the *Gazette* of Monday, being the only New York paper received.

It was reported in London on the 2d ultimo that important dispatches were sent off by Lord Palmerston to the English Consul at Oporto, and Lord Wm. Russel at Lisbon, relating to the measures the British Government intended adopting. Great hopes were entertained by Don Pedro's party, that Lord Palmerston had at length agreed to put an end to the struggle, and acknowledge Donna Maria as Queen.

A French paper gives a report that the Emperor of Russia refuses to receive the French Ambassador, Marshal Maison, and the English Ambassador, Stratford Canning; but the report is not believed by the London Globe.

The Duchess of Berry, was ill, and the French Government had despatched two eminent physicians to attend her. There were some ungenerous reports on this subject.

The London papers give copious extracts from the American papers, in relation to the affairs of South Carolina. The Globe observes, 'In spite of all the wrath and denouncement of the Nullifiers, the Union party in South Carolina seems very strong, and in all are determined to support the President.'

The Dutch and Belgian question seems to remain in *statu quo*.—The only article we notice on the subject is the following:—On the 25th January the Dutch Council of Ministers assembled. The King presided in person. The last despatches from London was the subject, but this sitting had not concluded the discussion of them. In a letter from the Hague, dated the 25th, it is stated 'that these despatches are still under consideration, and the answers not yet determined upon. The negotiations at London are not to be continued unless the Scheldt is again opened, whilst our Government requires that the prisoners and ships be previously released. It appears by the last accounts from London, that the detention of our ships is still rigorously enforced.' And as respects the opening of the river, we find it stated as a report prevailing at the Hague, that the Dutch Government had given orders to open the Scheldt for Austrian, Russian, and Prussian ships, and has declared its readiness to do the same for the French and English vessels, as soon as their governments gave orders for removing the embargo upon Dutch ships.

CONSTANTINOPLE.

The following account of a great battle between the armies of the Grand Sultan, and the Egyptians, in which the former was defeated, with the capture of the Grand Vizier (the Prime minister of Turkey) is the most important item by this arrival. It is as follows:

Constantinople, Dec. 26.—The greatest gloom prevails here. The Sultan and his people appear to have fallen into a state of apathy, indicative of a total dissolution. The former gives up his case as desperate, and does not venture to excite the people's minds by artificial means, lest he should not be able to calm them again, and keep them within bounds. The unfortunate result of the battle of Koniah, and the captivity of the Grand Vizier, leaves the capital without means of defence. There are still, perhaps, 30,000 Turkish troops dispersed in Asia Minor, and 10,000 regulars in reserve, but their spirit does not correspond with the threatening danger, nor is there any able leader possessing sufficient self-confidence, and who is considered as able to restore good fortune to the standards of the Sultan. Redschid Pacha was the only man possessed of these qualifications. His former good fortune has deserted him, and gone over to his younger adversary. He fought valiantly, and when his defeat was decided, devoted himself to death, which, however, he did not find. Superior to his adversary in the number of his troops, he unhappily did not act with prudence, which an able General should never loose sight of. He resolved on the 21st to fight a battle which should decide the campaign at one blow. With this view he followed Ibrahim into the defiles of Karaman to attack him there. His measures were nearly as follows:—the main body of the Sultan's troops, about 42,000 in number, chiefly Albanians, and 500 of the Grand Vizier's household troops under his own command, were to make the principal attack on the centre of the Egyptians, while the Turkish cavalry divided into two corps of 6,000 men each, was to engage the wings of Ibrahim's army, and attack when it should see an opportunity. Ibrahim, perhaps, guessed this plan, and favoured by the defiles had sent strong columns against the Grand Vizier's wing, leaving in the centre only sufficient troops to cover his movements. He had scarcely reached the extremity of the wings of the Grand Vizier, when he impetuously attacked the Turkish cavalry and dispersed it, and then attacked the Grand Vizier himself on both flanks.

Unprepared for this attack, and engaged with the Egyptian centre, which he had already broken, he hastily collected some of his best troops to oppose the Egyptians, but in vain. Nothing remained but to make the enemy pay as dear as possible for the victory, which was unavoidable; this was done, and the Egyptians did purchase their triumph by a sanguinary conflict of six hours' duration. The loss on each side was nearly equal.—When the Albanians were dispersed, the Grand Vizier, with his faithful household troops defended himself to the utmost, till he was wounded and taken prisoner. The Egyptians are said to be now so weakened, that even now, if the Turkish troops in Asia Minor could be assembled quickly enough, they might be compelled to make a most dangerous retreat. But they need not fear this.

There is no genius or spirit in the Councils of the Sultan; meantime the Emperor Nicholas is acting with the greatest magnanimity. Count Murawieff is gone to Alexandria to try to make peace, and is to threaten Mehemet Ali with the displeasure of the Emperor, who will consider him as a rebel against the Sultan, if he does not return to his obedience.

We are authorised to announce to the Voters of Annapolis, and Anne-Arundel county, that ROBERT WELCH of Ben. is a Candidate for the next Sheriffalty.

TO THE PUBLIC.

THE subscriber, in justice to himself and business, feels called upon to appear before the public and state that he has been misrepresented in the prices given by him for the raw material in the line of his business, namely, Hides and Skins. It has been told that I give but 4 cents for Hides, while the speculator says, I will give you 4½ cents—and in some cases the speculator has doubled his money on the country-man for his hide. I have not, since I have been in the business, given less than 5 cents per pound, for good green Hides. I will at all times give a fair Baltimore price. I now offer the public in cash, the following prices:

Green Hides,	5 cts.
Dry Hides,	11 cts. per lb.

Persons having Hides to sell, ought to sell them to the manufacturer of the Hide, who will at all times give more than the speculator. I can at all times be found at my Tan Yard next below the store of the Messrs. Millers, where I will give the highest Baltimore price.

Respectfully,
DAN'L. T. HYDE.

PROPOSALS

For publishing by Subscription, a small volume of

THE SERMONS

OF THE LATE

RT. REV. JAMES KEMP, D. D.

Bishop of the P. E. Church of Md. together with the Funeral Address delivered in St. Paul's Church, containing some brief biographical notices.

SEVERAL considerations combine to recommend the publication of the proposed volume. It is desirable to preserve a memorial of all who have held a relation to the Church in this country, so interesting and important as that of its Bishops. Their alliance is no doubt peculiarly endearing to the diocess over which they are chosen to preside, and the power of their doctrine and example is most felt in those parishes among which they have gone, with the authority of a ruler, the vigilance of a shepherd, and the tenderness of a parent. Yet do their character and influence belong to the whole ecclesiastical body of which they were legislators; and it is both gratifying and profitable to find them with one accord maintaining "the faith once delivered to the Saints," and breathing the spirit of that "form of sound words," equally scriptural and beautiful, to which successive ages only add increasing veneration.

At the same time, however, that this end is to be effected, the present volume is regarded principally "as a means of affording to every member of the diocess of Maryland the privilege of co-operating in the erection of a Monument to their deceased and much venerated Bishop." To all he has ministered in the discharge of his office as Chief Shepherd of the flock; and to very many prior to his election to this charge, was he the instrument of imparting the most precious truths and consolations. It is believed that it will be a source of lively gratification to such persons that they may preserve in their own homes and hearts a memorial of his affectionate, and judicious, and evangelical instructions, while they perpetuate his name, and manifest their grateful sense of his worth by contributing to rear a monumental pile upon his grave. That the privilege may be universally enjoyed, the volume will be small, and the terms exceedingly low: and those interested in promoting the several objects of the publication, can attain their end by increasing the number of copies subscribed for.

The work will be printed on fine paper, and compressed in a small duodecimo volume, and delivered to subscribers neatly bound in cloth backs, at $1 00 per copy.

☞ Having ascertained that sufficient patronage will be extended to this work to warrant the publication, it will be immediately put to press. Persons disposed to promote the ultimate object, are requested to furnish their subscriptions to the publishers without delay. Address

JOS. ROBINSON,
Bookseller and Stationer, No. 2, North Calvert street, Baltimore.

TO THE PUBLIC.

ON Sunday night, the 17th instant, FIVE MEN dressed in sailors' attire, arrived at Thomas' Point in a ROW BOAT, or GIG, very handsome, copper fastened, and her keel entirely coppered, painted black on the outside with a streak of white round the waist; the inside painted green, four oars and a mast, and the boat is without a rudder. These men (four of whom I took to be American seamen, the other a German,) had considerable clothing with them, and stated that they were on their way to Baltimore; they also stated that they had made their escape from a ship partly owned and commanded by Captain Webb, then at anchor off Richmond Harbour, James River; they did not discover or tell the name of the ship.

I HEREBY GIVE NOTICE, That the Boat is now in my possession at Thomas' Point Light House. The owner or owners can have her by identifying the property, and shewing proper authority for the reception of said Boat.

ON application to me the subscriber, a justice of the Orphans Court, of William T. Gantt, praying for the benefit of the act for the relief of Insolvent debtors, passed at November session 1805, and the several supplements thereto, a schedule of his property and a list of his creditors on oath as far as he can ascertain them being annexed to his petition, and having satisfied me by competent testimony that he has resided in the state of Maryland two years immediately preceding this his application, and that he is in actual confinement for debt only, and the subscriber having appointed a trustee for the benefit of the creditors of said petitioner, and the said trustee having given bond with security, for the faithful performance of said trust, it is therefore ordered and adjudged by me, that the said William T. Gantt be discharged from his confinement, and that he by causing a copy of this order to be inserted in the Maryland Gazette once a week for three successive months before the third Monday of April next, give notice to his creditors to appear before Anne Arundel county court on the third Monday in April next, to shew cause if any they have, why the said William T. Gantt should not have the benefit of the said act and supplements, as prayed.

PROSPECTUS

For publishing by subscription, a weekly Journal in Port-Tobacco, Charles county, Md. to be entitled

"THE PORT-TOBACCO PRESS,
And Charles County Advertiser."

IN presenting to the public the design of publishing a paper at Port-Tobacco, it will only be necessary briefly to explain the plan that is intended to be pursued.

Almost every county in the state has a newspaper printed in it, and it has long been a subject of surprise and regret, that the wealthy, intelligent and industrious population of the two counties, (St. Mary's and Charles) should have remained so long destitute of a paper printed and published within their limits. The projectors of the present plan, confident of a liberal support from an enlightened and generous public, have issued this prospectus with an intention of devoting themselves to usefulness, increasing (as far their humble means will extend,) the general stock of information, and enlarging the sphere of useful knowledge. Its columns will be yielded to Literature and the Muses. The current news of the day will be faithfully and correctly given, whether of a foreign or domestic nature; and the general principles of Religion and Morality strongly inculcated. With these views, it is hoped the intended publication will meet with liberal encouragement. It will be commenced as soon as a sufficient number of subscribers can be obtained.

It will be printed on a super-royal sheet, with new and fashionable type. The price of subscription will be two dollars, if paid within three months, and two dollars and fifty cents if not paid until the expiration of the year.

F. M. JARBOE.

☞ Postmasters receiving copies of the Prospectus, are respectfully requested to exert their influence in procuring subscribers thereto, and forward the same, with the names of such as they may have obtained, to

A NEW, CHEAP AND POPULAR PERIODICAL.

WALDIE'S SELECT CIRCULATING LIBRARY.

THE striking features of this periodical are, that books are published in it in a form which allows of their being carried by mail, and at a rate so reasonable, that every intelligent educated person in the community can procure them. The publisher receives from England all the new books of merit, from these, selections are made from the best class Novels, Memoirs, Travels, Sketches, Tales, and Biography. These are printed as rapidly as an extensive printing office will admit, and forwarded by mail, carefully packed so as to carry to the most distant post office in the Union, uninjured.

This periodical commenced in October, with the popular novel of Wahlstein, or the Swedes in Prague, which cost in London six dollars; it is contained entire in two numbers and a half of the Circulating Library, costing subscribers less than twenty-five cents. This was succeeded by the Memoirs of Lavalette, which cost the publisher to import eight dollars; it was likewise contained in the same space and at the same price. The sixth number commences the travels of Mr. Vigne, costing in London six dollars; it will be printed entire in the "Library" for at most thirty cents! This enumeration of prices the publisher trusts, with the facility of transportation by mail, will be sufficient to induce those who receive the prospectus, to use some exertion to extend the circulation of the work in their respective neighborhoods, as, if encouraged hereafter as he has so far been, it is his intention to lay before the American public in this form all the best books which issue from the London press.

The price is five dollars for 52 numbers, which will contain as much matter as 1200 pages, or three volumes, of Rees's Cyclopædia. This volume will comprise at least from twenty-five to thirty entire works printed on good paper, and with the same accurate as book work. It will form two volumes of 600 pages each, well worthy of preservation for reference, as a valuable addition to every public and private library. The publisher feels confident in stating, that the entire 52 numbers, when bound, will sell for more than the subscription price, as after a few more numbers are issued, no more will be printed than will supply actual paying subscribers.

Still further to increase the facilities of subscribers, the publisher has added another inducement for clubs to join together in their remittance. Twenty dollars will be received in full for the subscription of five individuals. This deduction will pay all postage.

Those who design to patronize this new and popular mode of publishing good books, will oblige the subscriber by forwarding their remittances as early as practicable. A five dollar note deposited in the post office will supply good reading to a family and circle of acquaintance for a whole year.

The gentleman who makes the selections for this periodical, to literary taste and education, has, from his situation, facilities for knowing what is popular and of high reputation possessed by few; to this he adds a proper sense of the responsibility he has assumed in catering for an extended and moral community. The publisher therefore confidently recommends the Circulating Library to heads of families as a work which they need have no fear of introducing into any circle.

The ensuing number will contain a highly popular novel, by the English Opium Eater.

BIBLE CONVENTION FOR THE STATE OF MARYLAND.

The following is a copy of a Circular about being addressed to the Reverend Clergy and Bible Societies of our State:

BALTIMORE, March 2d, 1833.

Reverend and Dear Sir:

The *Young Men's Bible Society* of this ci[ty], in connexion with other Societies, has re[cently] commenced a second time to supply the destitute families in our state with the Bible.

In the general supply of the state a few years since, there was often found a great want of system in our operations: in consequence of which the work was not as thoroughly accomplished in all cases as could have been desired. Having learned something from the past, we are of opinion, that with a little timely attention and exertion, the errors of former inexperience may not only be avoided in the present undertaking, but a system devised which will insure a regular and permanent supply of the Sacred Scriptures hereafter to every destitute household in our state.

In view of this contemplated re-supply, it has been thought by some of the friends of the cause here, that it would be extremely advantageous to establish such uniform plan of operations throughout the state as would secure the harmonious and efficient co-operation of ALL. For this purpose it has been suggested that A BIBLE CONVENTION FOR THE STATE OF MARYLAND *be held in the city of Baltimore on the first day of May next*, to which every Christian congregation and Bible Society in the state, and that part of the District of Columbia lying north of the Potomac, shall be invited to send one or more lay delegates, without regard to age; as it is neither expected nor desired that the work should devolve exclusively upon the *young men* of Maryland. The Society we represent puts out the *organ* of this call upon our brethren throughout the state, and we hope it will be cordially responded to by those of every age and condition in life. When infidelity dares boldly to show its hideous front, and stalk abroad among us in open day; or its more deceptive, but not less dangerous shape, attempts to subvert those precious articles of our holy faith which are alike the refuge of the sinner and the consolation of the saint; surely it behoves the Christians of America to take the alarm in time, and make and *keep* their land the land of Bibles.

Many important suggestions are expected to claim the serious attention of the Convention, and its proceedings cannot fail, we think, to be regarded with no ordinary interest. It will prove a salutary example to the sister states of our confederacy, and by the Divine blessing must give a powerful impulse to the Bible cause throughout the Union. It is believed that it will be numerously and ably attended, affording gratifying evidence to our brethren abroad how much the Christians of Maryland love the truth and simplicity of the Bible, and how deep is the anxiety they feel that others may possess the heavenly boon.—We feel assured that no Bible Society or congregation of Christians within its boundaries, will consent to remain unrepresented in a body assembled for the avowed and only object of consulting upon the great interests of man's salvation in the wide dissemination of the Sacred Scriptures. Let us then meet in the name of our common Lord and Saviour, and amidst the cordial interchange of our kindly greetings, present to our country and the world a spectacle so solemn, so sublime, and so instructive, as that of an assemblage of Christians, of every sect and denomination,—sacrificing for a season their differences of opinion at the foot of the Cross,—the circulation of the BIBLE, *without note or comment*, their holy bond of union!

It is respectfully requested that this letter be submitted to the congregation under your pastoral charge, who are hereby invited to elect one or more lay delegates to the proposed convention as early as convenient. You will oblige us by immediately communicating the result to our Corresponding Secretary.

In behalf of the "*Young Men's Bible Society of Baltimore*," we have the honour to be very respectfully, your obedient servants,

WM. P. LEMMON, President.
M. GWYNN JONES, Corresp'dg. Sec.

☞All Editors throughout the state of Maryland and the District of Columbia, are respectfully requested to give the above one or more insertions in their respective papers.

The committee on military pensions and revolutionary claims, to whom was referred the petition of Juliana Brice, (relict of Col. James Brice of the city of Annapolis,) have had the same under their consideration, and after the most serious investigation of the subject, they have not been able to discover any services rendered by Col. Brice, that would have entitled him to a military pension. It does not appear that he (Col. Brice) ever served in the Maryland line on the continental establishment, or that he was ever attached to the military service out of Anne-Arundel county. Col. Brice, acted merely as Lieutenant of Anne Arundel county, and inspected the quota of troops that were raised in that county, on the continental establishment. 'At November session 1779, it was enacted, that the recruits should be carried by the recruiting officers respectively before the Lieutenant or any field officer of the county in which such recruits were raised to pass muster.'

If Col. Brice was to have received pecuniary compensation for this service, and has not, justice would seem to require that the state should remunerate his legal representatives, but no such debt has been proved to your committee, they are therefore of opinion, that the prayer of the petitioner ought not to be granted, and that she have leave to withdraw her said petition;

Which was read the first and second time.

It possesses more explicitness than has before characterised these addresses. The embargo on Dutch vessels had not been taken off, and it was said would not be while affairs with that country remained unsettled.

Letters from Swabia announce the probability of Ibrahim Pacha assenting to a cessation of hostilities, with a view to a definitive arrangement of the differences between the Sultan and his insurgent Viceroy.

Accounts from Constantinople to January 6th, state that the Sultan in the extremity of his distress had accepted the offer of assistance made by the Emperor of Russia, and that a Russian officer set off for Egypt, to demand the submission of the Viceroy to the Sublime Porte.

The accounts from Paris are to February 4th.—The naval preparations at Brest continued to be prosecuted with undiminished energy, and some of the ships of war were already in a condition to put to sea.

The Army of the North, the head quarters of which were at Compeigne, had been restored to the same footing as that upon which it was placed before its recent entry into Belgium

Accounts from Spain, received by the French Journals, state that some partial disturbances in that kingdom, had been effectually put down, and that Don Carlos was under arrest in his own apartments.

We are authorised to announce to the Voters of Annapolis, and Anne-Arundel county, that ROBERT WELCH of Ben. is a Candidate for the next Sheriffalty.

PROSPECTUS

For publishing by subscription, a weekly Journal in Port-Tobacco, Charles county, Md. to be entitled

"THE PORT-TOBACCO PRESS,
And Charles & St. Mary's County Advertiser."

IN presenting to the public the design of publishing a paper at Port-Tobacco, it will only be necessary briefly to explain the plan that is intended to be pursued.

Almost every county in the state has a newspaper printed in it, and it has long been a subject of surprise and regret, that the wealthy, intelligent and industrious population of the two counties, (St. Mary's and Charles) should have remained so long destitute of a paper printed and published within their limits The projectors of the present plan, confident of a liberal support from an enlightened and generous public, have issued this prospectus with an intention of devoting themselves to usefulness, increasing (as far their humble means will extend,) the general stock of information, and enlarging the sphere of useful knowledge. Its columns will be yielded to Literature and the Muses. The current news of the day will be faithfully and correctly given, whether of a foreign or domestic nature; and the general principles of Religion and Motality strongly inculcated. With these views, it is hoped the *intended publication* will meet with liberal encouragement. It will be commenced as soon as a sufficient number of subscribers can be obtained.

It will be printed on a super-royal sheet, with new and fashionable type. The price of subscription will be two dollars, if paid within three months, and two dollars and fifty cents if not paid until the expiration of the year.

A. GARRETT,
F. M. JARBOE.

☞ Postmasters and others, who have received copies of the above Prospectus, are respectfully requested to transmit the same, (as early as practicable,) with such signatures as they may have procured, to

FRANCIS M. JARBOE.

The Annapolis Republican and Annapolis Gazette will please publish the above until day of sale, and charge John Scott, St. Paul's Lane, Baltimore.

TO THE PUBLIC.

THE subscriber, in justice to himself and business, feels called upon to appear before the public and state that he has been misrepresented in the prices given by him for the raw material in the line of his business, namely, Hides and Skins. It has been told that I give but 4 cents for Hides, while the speculator says, I will give you 4½ cents—and in some cases the speculator has doubled his money on the country-man for his hide. I have not, since I have been in the business, given less than 5 cents per pound, for good green Hides. I will at all times give a fair Baltimore price. I now offer the public in exchange, the following prices:

GREEN HIDES,	5 cts
DRY HIDES,	11 cts. per lb.

Persons having Hides to sell, ought to sell them to the manufacturer of the Hide, who will at all times give more than the speculator. I can at all times be found at my Tan Yard next below the store of the Messrs. Millers, where I will give the highest Baltimore price.

Respectfully,

DAN'L. T. HYDE.

These are therefore to certify, That I have this day granted a personal discharge to the said Caleb Davis. Given under my hand this 20th day of August, in the year one thousand eight hundred and thirty two.

PROPOSALS

For publishing by Subscription, a small volume of

THE SERMONS

OF THE LATE

RT. REV. JAMES KEMP, D. D.

Bishop of the P. E. Church of Md. together with the Funeral Address delivered in St. Paul's Church, containing some brief biographical notices.

SEVERAL considerations combine to recommend the publication of the proposed volume. It is desirable to preserve a memorial of all who have held a relation to the Church in this country, so interesting and important as that of its Bishops. Their alliance is no doubt peculiarly endearing to the diocess over which they are chosen to preside, and the power of their doctrine and example is most felt in those parishes among which they have gone, with the authority of a ruler, the vigilance of a shepherd, and the tenderness of a parent. Yet do their character and influence belong to the whole ecclesiastical body of which they were legislators; and it is both gratifying and profitable to find them with one accord maintaining "the faith once delivered to the Saints," and breathing the spirit of that "form of sound words," equally scriptural and beautiful, to which successive ages only add increasing veneration.

At the same time, however, that this end is to be effected, the present volume is regarded principally "as a means of affording to every member of the diocess of Maryland the privilege of co operating in the erection of a Monument to their deceased and much venerated Bishop." To all he has ministered in the discharge of his office as Chief Shepherd of the flock; and to very many, prior to his election to this charge, was he the instrument of imparting the most precious truths and consolations. It is believed that it will be a source of lively gratification to such persons that they may preserve in their own homes and hearts a memorial of his affectionate, and judicious, and evangelical instructions, while they perpetuate his name, and manifest their grateful sense of his worth by contributing to rear a monumental pile upon his grave. That the privilege may be universally enjoyed, the volume will be small, and the terms exceedingly low: and those interested in promoting the several objects of the publication, can attain their end by increasing the number of copies subscribed for.

The work will be printed on fine paper, and comprised in a small duodecimo volume, and delivered to subscribers neatly bound in cloth backs, at $1 00 per copy.

☞ Having ascertained that sufficient patronage will be extended to this work to warrant the publication, it will be immediately put to press. Persons disposed to promote the ultimate object, are requested to furnish their subscriptions to the publisher without delay. Address

Bookseller and Stationer, No. 2, North Calvert street, Baltimore.

A NEW, CHEAP AND POPULAR PERIODICAL.

WALDIE'S SELECT CIRCULATING LIBRARY.

THE striking features of this periodical are, that books are published in it in a form which allows of their being carried by mail, and at a rate so reasonable, that every intelligent educated person in any community can procure them. The publisher receives from England all the new books of merit; from these, selections are made from the best class Novels, Memoirs, Travels, Sketches, Tales, and Biography. These are printed as rapidly as an extensive printing office will admit, and forwarded by mail carefully packed so as to carry to the most distant post office in the Union, uninjured.

This periodical commenced in October, with the popular novel of Wahlstein, or the Swedes in Prague which cost in London six dollars; it is contained entire in two numbers and a half of the Circulating Library, costing subscribers less than twenty-five cents. This was succeeded by the Memoirs of Lavallette which cost the publisher to import eight dollars; was likewise contained in the same space and at the same price. The sixth number commences the travels of Mr. Vigne, costing in London six dollars; will be printed entire in the "Library" for at most thirty cents! This enumeration of prices the publisher trusts, with the facility of transportation by mail, will be sufficient to induce those who receive the prospectus, to use some exertion to extend the circulation of the work in their respective neighborhoods, as, it encouraged hereafter as he has well been, it is his intention to lay before the American public in this form all the best books which issue from the London press.

The price is five dollars for 52 numbers, which will contain as much matter as 1200 pages, or three volumes, of Rees's Cyclopædia. This volume will comprise at least from twenty-five to thirty entire works, printed on good paper, and with the same account as book work. It will form two volumes of 416 pages each, well worthy of preservation for reference, and a valuable addition to every public and private library. The publisher feels confident in stating, that the entire 52 numbers, when bound, will sell for more than the subscription price, as after a few more numbers are issued, no more will be printed than will supply actual paying subscribers.

Still further to increase the facilities of subscribers, the publisher has added another inducement for clubs to join together in their remittance. Twenty dollars will be received in full for the subscription of five individuals. This deduction will pay all postage.

Those who design to patronize this new and popular mode of publishing good books, will oblige the subscriber by forwarding their remittances as early as practicable. A five dollar note deposited in the post office will supply good reading to a family and circle of acquaintance for a whole year.

The gentleman who makes the selections for this periodical, to literary taste and education, brings his situation, facilities for knowing what is new and of high reputation possessed by few; to which adds a proper sense of the responsibility he has assumed in catering for an extended and moral community. The publisher therefore confidently recommends the Circulating Library to heads of families, as a work which they need have no fear of introducing into any circle.

The ensuing number will contain a highly popular novel, by the English Opium Eater.
